HARD HIT AT TURKEY.

Hepburn Urges that the Minister of the Porte Be Given Passports.

The national House Monday, after an interesting four hours' debate, adopted the resolutions passed by the Senate last week calling on the powers signatory to the treaty of Berlin to enforce the reforms in Turkey guaranteed to the Christian Armenians, and pledging the support of Congress and the President in the most vigorous action he might take for the protection and security of American citizens in Turkey. The House committee had prepared some resolutions on the same subject, but it was deemed advisable after the Senate resolutions reached the House to substitute them for those prepared by the committee.

Mr. Quigg, of New York, who had charge of the resolutions, made an able presentation of the case. There was a disposition on the part of some of the members to go further than the resolutions did and Mr. Hepburn, of Iowa, proposed to give the Turkish minister his passports and sever all diplomatic relations with Turkey. His remarks denouncing the Turkish outrages and charging that the powers signatory to the treaty of Berlin were actuated from political and other considerations in maintaining the "balance of power" in eastern Europe were received with great enthusiasm and at one time it looked as if the House might be carried to his way of thinking, But the counsel of Mr. Hitt not to take rash action, in the course of which he pointed out the dire consequences that might result from a severance of diplomatic relations with a friendly power that had fulfilled her treaty obligations to us. prevailed, and the Hepburn proposition
